

Dear Patriots across America,

I just got invited to meet Marco Rubio in Sarasota Florida.
Seriously? No I really did.

The dude makes \$174,000 a year and he cannot even show up to
for work to do his day job.

He ran as the Tea Party candidate for Senator and as a founding
member he gave me his cell phone number.

He needed my leadership and the votes across the great state of
Florida in our Tea Party network to get elected into the Senate. I
coordinated for him state wide in all 67 counties and helped raise
him money.

With all that hard work he refused to attend Tea Party gatherings.
Always an excuse.

I had 2,500 people at an event with national figures and dignitaries
which I set up to help him win his senate seat and he failed to show
up. He got scared of the Counsel of Islamic Relations (CAIR) when
those butterball goat humper's came after me. Go figure.

Rubio is a fake a joke a disgrace. He used the Tea Party for his
personal gain then threw them aside the day he was elected a
Senator.

We the people the tax payers of America are now making his car
payments, house payments and boat payments while he takes an
extended vacation running for president on our dime.

The man is more interested in giving illegal immigrants citizenship
displacing law abiding Americans from the work force than
protecting Americans.

He voted for Obama's TPP agreement without even reading it, a job
destroying Communist over reach by the United Nations into our
shores.

He voted to YES to give John Kerry the Communist a job as Secretary of State.

I text Marco Rubio on his cell phone a few days before the vote breaking down to him the hostility of John Kerry's radical communist ideology against us and the US Constitution which has been shown to be true. Rubio ignored me.

Only Ted Cruz and 2 other GOP Senators voted against Kerry for his Secretary of State position.

Rubio failed to show up to vote on Obama's \$1.1 trillion 2016 Omnibus spending bill last month. So we must assume he supports it and he was too much of a coward to make a stand against it.

From January 2011 to December 2015, Senator Rubio has missed 197 of 1,482 roll call votes, which is 13.3%. This is unacceptable. The median or average is 1.7% among the lifetime records of senators currently serving.

Throughout 2015 Rubio missed a ton of votes as he ran for President. Much like Obama who also failed to show when he was Senator running for President. We don't need another Obama in office.

In the spring of 2015 Rubio missed 32.9 percent of votes.

In the summer of 2015 he missed 53.8 percent, and throughout the Fall he missed 58.2 percent.

We are not paying Rubio \$174,000 a year to run for President of the United States. He must return this money back to the Treasury Dept.

What is interesting is that in October 2015 Rubio said on the Senate floor "federal workers who don't do their jobs should be fired" I agree dude starting with you.. You are a federal worker.

Anyway folks, Marco Rubio does not have my vote and he needs to step down from the Senate and his presidential run. I would not trust this guy with the keys to the Treasury Dept., the nuclear weapons codes or my Aunt Ethel's cookie jar.

As a founding member of the Tea Party movement in Florida we came together as Americans to ensure fiscal sanity in Washington and to reduce the size of the federal government. We demanded constitutional governance and accountability from our elected officials.

With that said I endorse Mr. Donald Trump as the next President of the United States. Not because he is Republican but because he is an American with guts.

He supports capitalism and free market growth. Job creation runs in his veins.

He says what over 80% of this nation feels..... Obama and the Congress your asses are fired..... and soon....

Adios Rubio,

Senior Chief Petty Officer Geoff Ross
